Making connections

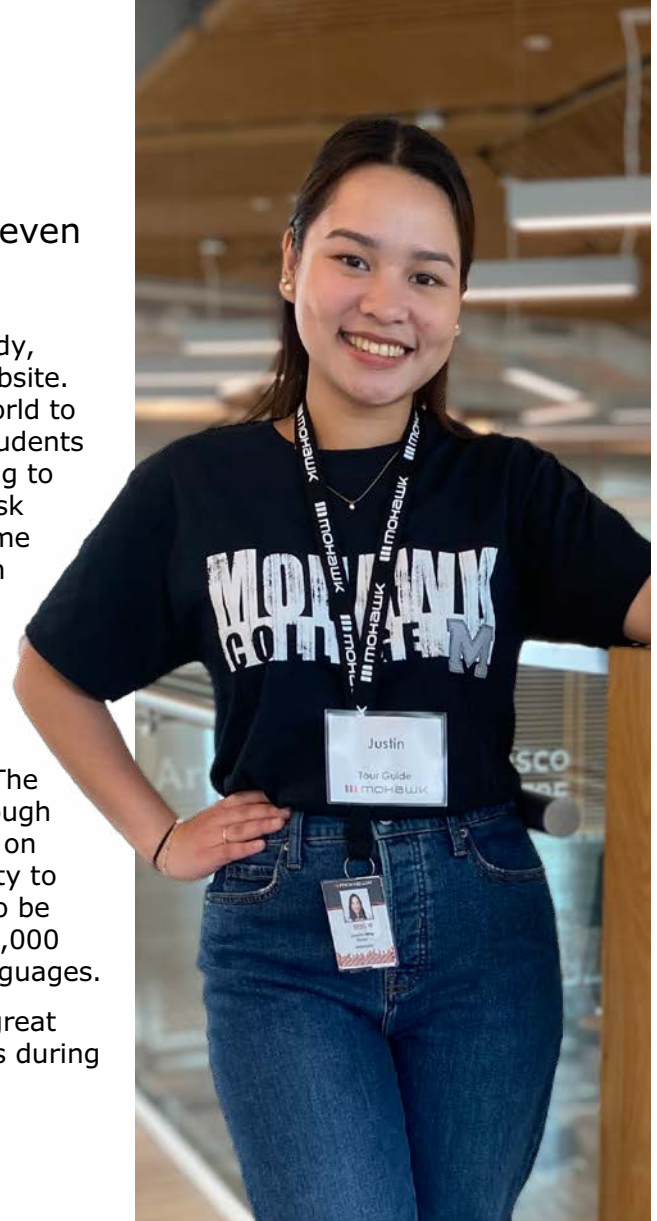

Partnership helps you make connections even before coming to the college.

Mohawk International recently partnered with Unibuddy, incorporating the “Ask a Student” feature into our website. This platform enables students from all around the world to be matched with like-minded, current international students who have gone on the same journey you are beginning to consider. Through the use of a chat option, you can ask questions, get recommendations and begin to feel some trust and confidence around the life-changing decision you are about to make.

These chats allow you to connect with real students who share their experience, whether it's about their academic journey, working experience, student life or life in Canada. You have the opportunity to make connections even before coming to Mohawk College. The team of International Student Ambassadors goes through an interview process and are carefully selected based on their educational background and interests, their ability to reply to inquiries in a timely matter and their desire to be part of a team. Since July 2022, we have had over 21,000 conversations about 20+ programs in 12 different languages.

Becoming an International Student Ambassador is a great experience and our ambassadors truly become friends during their time as a volunteer.

Your step-by-step guide to becoming a Mohawk student

For international students the college application process has a couple of extra, essential steps. Mohawk International is here to help with personal guidance on how to navigate the process. We are available to you as you plan your educational journey in Canada!

To book an appointment or speak with a member of our International Team, please contact us at intl.representatives@mohawkcollege.ca.

STEP 1 Choose your program

Mohawk offers a wide range of more than 100 programs that open career opportunities for international students.

Pay special attention to the deadlines for competitive programs (indicated with **C** beside the program name)—those programs have more qualified applicants than there are spaces. You are encouraged to apply for these high-demand programs as early as possible to be considered for the limited number of spaces available.

STEP 2 Apply via Ontario College Application Service (OCAS)

The OCAS International Application Service (IAS) is an online application process that will only take a few minutes. If you need to take a break, your progress will be saved and you will be able to continue right where you left off when you return. Apply online now at mohawkcollege.ca/OCAS-International.

STEP 3 Confirming your Offer of Admission

When you receive an offer of admission from Mohawk, you must then confirm you accept the offer and pay fees before the due date on your letter. This is done online through the OCAS International Applicant portal. Once you pay the required fees and accept your offer of admission you will receive a letter of acceptance that you can use for immigration purposes.

STEP 4 Receive your Letter of Acceptance

If your application is successful, you will receive a letter of acceptance and provincial attestation letter from Mohawk College. These letters are required for you to apply for your study permit and are official documents for immigration purposes.

Remember to review the document and ensure you fill out all the required steps.

STEP 5 Apply for your Study Permit

With your letter of acceptance, you should immediately apply for your study permit.

Meet our amazing alumni

Grads share their career journey and advice.

"The program was tough. It challenged me mentally and emotionally... I couldn't have done it without the support I had. It's hard but it's not impossible. It's easy to quit. But if you want to challenge your potential keep going and understand it's only hard for now. It will get easier."

Lacey '06, Practical Nursing

"Mohawk College actually shaped my future and gave me a purpose to my life. If I wasn't at Mohawk, I wouldn't have changed my career path or my focus in life."

Yash '17, Autism and Behavioural Science

"Mohawk was a defining moment for me. Yes, the program was challenging, but it prepared me for my career and exposed me to the many aspects of computer engineering and automation that I love today."

Racheal '21, Computer Engineering Technology

"As a student, I looked forward to working as a millwright. I really appreciated the good teachers and mentors that I had. I had a co-op placement at Stelco, which I really enjoyed. I worked in different departments and got to see how my education applied to real life work. This helped me to get a full-time position as a millwright with the company."

Dyar '16, Industrial Mechanic (Millwright)

"[The program allowed me] to build a network of industry professionals. It was fast-paced and intense, so I got a feel for what the working world really was like. [The courses were] full of practical, hands-on approaches for how I could actually do my work in the real world."

Land Acknowledgment

Mohawk College derives its name from the Mohawk Nation, one of the Six Nations of the Haudenosaunee Confederacy. The Confederacy marks a union of peace and friendship, and Mohawk College honours that union by recognizing the Six Nations of the Grand River and the Mississaugas of the Credit First Nation.

We acknowledge that the territories on which Mohawk College and its campuses are situated are governed by the Between the Lakes Treaty, the Dish with One Spoon Wampum Agreement, and the Upper Canada Treaty Agreement. These agreements are binding to this day and represent our mutual commitment to maintain healthy, reciprocal and respectful relationships with the many Indigenous nations and peoples of this area. We acknowledge this and iterate our dedication to inclusivity, to friendship and to valuing the ongoing contributions of Indigenous peoples and communities.
